

Executive Board
11th Session
14-15 December 2009
WHO Geneva, Switzerland

Resolution n°14

Action names:

- *Viral Load Testing for Low Resource Settings*
- *Partnership for scaling up access to viral load testing in resource-constrained settings (PASCAL)*
- *Facilitating the Scaling Up of Access to quality and Affordable Viral Load Technologies and Testing Services for Monitoring Treatment of HIV/AIDS to help achieve global health and development goals*

Organizations:

- **CHAI (The William J. Clinton Foundation)**
- **ESTHER, ANRS, SOLTHIS, SIDACTION, MSF Switzerland**
- **World Health Organization (WHO)**

The Board of UNITAID does not approve the three funding requests submitted on Viral Load and encourages the proponents to explore ways of working together to prepare a comprehensive proposal that is innovative and with a wide geographical scope. The proponents will be notified of the expected timeline for Board consideration.

A handwritten signature in blue ink, appearing to read 'Ph. Douste-Blazy'.
