

15th Executive Board
12-13 December 2011
Palais des Affaires étrangères
1 rue Robert Esnault-Pelterie
Paris, France

Resolution n°5

Support for products in late stage field evaluation and registration (“market entry”)

With reference to:

- The HIV Diagnostics Landscape, presented at the 14th Executive Board meeting
- Discussions held at the FAC and PSC meeting of 15th and 16th November, 2011
- Work undertaken by the secretariat, and presented at the 15th Executive Board meeting

The board endorses the secretariat recommendation to include support for products in late stage field evaluation and registration (“market entry”) as part of the UNITAID business model.

The board instructs the Secretariat to develop an approach, in consultation with technical partners, such as WHO, to support market entry of medicines, diagnostics and submit it to the spring session of the Board.

This approach should initially build on Letters of Intent already submitted to UNITAID as part of the Diagnostics Call.

A handwritten signature in blue ink, which appears to read "Ph. Douste-Blazy". The signature is stylized and cursive.
