Resolution n°9

Action name: Funding for the Conclusion of the Assured Artemisinin Supply Services (A2S2) Project

Organization: i+solutions

Recalling the UNITAID Board resolution EB9AH/2009/R5;
Considering the outcome of the PRC review and recommendations;
The Board of UNITAID decides not to approve the A2S2 Project Extension Proposal and
authorizes the Executive Director to ensure orderly closure of the project.

The Board notes that the final repayment of loan funds is due by March 2013. It will therefore be necessary for the project to continue until this time. Continuation of the project is conditional upon:

i. No further loans to be agreed;

ii. A revised proposal by i+solutions addressing the scope and nature of the market intelligence to be provided, to the satisfaction of the Secretariat; and

iii. Signature of the legal agreement between i+solutions and UNITAID.
