

Resolution n°13-2023-e

Extension for the Project “Rapid, comprehensive targeted gene sequencing solution for drug-resistant TB diagnosis in LMICs”

Recalling Unitaid Board Resolution R8-2019-e in which the Board authorized the Executive Director to commit an amount of up to US\$ 14,457,862 for the project entitled “Rapid, comprehensive targeted gene sequencing solution for drug-resistant TB diagnosis in LMICs” (the “Project”), to be implemented by FIND during a three-year period ending on 30 September 2022;

Noting that during 2022, the Unitaid Secretariat approved a 12-month no-cost extension to the duration of funding for the Project, ending 30 September 2023;

Noting that FIND has since made a request for a further 12-month no-cost extension to the duration of funding for the Project;

Acknowledging the rationale for supporting this request, the Board authorizes the Executive Director to extend the duration of funding for the Project by a further twelve months to 30 September 2024 at no additional cost, subject to the signature of a formal amendment to the legal agreement for the Project.

Marisol Touraine
Chair of the Unitaid Executive Board

Date: 20 June 2023
