Starling Hotel
Geneva, Switzerland**

Resolution n° 1

Tuberculosis Area for Intervention: Better, shorter treatments for MDR-TB

Having considered the analysis presented by the Secretariat during the 24th Special Session of the UNITAID Executive Board, the Executive Board supports the need for UNITAID to focus strategically on "Better, shorter treatment for multidrug-resistant Tuberculosis (MDR TB)" with a view to securing substantial improvements in MDR-TB treatment, thereby contributing to global goals to eliminate Tuberculosis.

The Executive Board requests the Secretariat to launch appropriate calls for proposal within this Area for Intervention and to present progress on implementation to the Policy and Strategy Committee.

The Board's endorsement of this Area for Intervention has no budgetary implications.

A handwritten signature in blue ink, appearing to read "Marta Maurás Pérez". The signature is fluid and cursive, with a large initial "M" and "P".

Marta Maurás Pérez
Vice-Chair of the UNITAID Executive Board
