Resolution n° 2

Tuberculosis Area for Intervention: Scale up of better Tuberculosis treatment for children

Having considered the analysis presented by the Secretariat during the 24th Special session of the UNITAID Executive Board, the Executive Board supports the need for UNITAID to focus strategically on "Scale-up of better Tuberculosis treatment in children" with a view to securing a substantial impact in treatment of paediatric Tuberculosis, contributing to global goals to eliminate Tuberculosis.

The Executive Board requests the Secretariat to launch appropriate calls for proposal within this Area for Intervention and to present progress on implementation to the Policy and Strategy Committee.

The Board's endorsement of this Area for Intervention has no budgetary implications.
