

Unitaid Executive Board Meeting
30th Session
5-6 December 2018
Radisson Blu Hotel
Marrakech

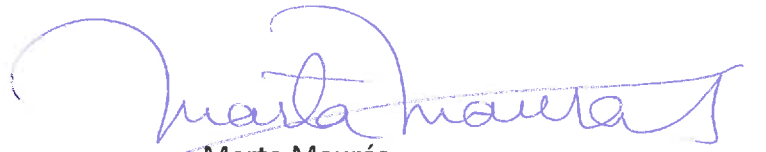

Resolution n° 4

Area for Intervention: Better tools for the diagnosis and treatment of *Plasmodium vivax* malaria

Having considered the analysis presented by the Secretariat during EB30, the Executive Board supports the need for Unitaid to focus strategically on “Better tools for the diagnosis and treatment of *P. vivax* malaria”, with a view to contributing to the goals set out in WHO Global Technical Strategy for Malaria 2016 – 2030;

The Executive Board requests the Secretariat to launch appropriate calls for proposals within this Area for Intervention and to present progress on implementation to the Policy and Strategy Committee.

The Executive Board’s endorsement of this Area for Intervention has no budgetary implications.

Marta Maurás
Chair of the Unitaid Executive Board
