Ad Hoc Session
29 January 2009
WHO Geneva, Switzerland

Resolution n°2

**Concept Note on Artemisinin Supply to meet the needs of ACT
manufacturers 2010/2011**

The Board of UNITAID takes note of the analysis of the Interim Expert Advisory Group (IEAG) that there was insufficient information available on the need for additional Artemisinin to meet the needs of ACT manufacturer. The Secretariat is requested to revert to the Board by way of written consultation by the end of February to allow the Interim Expert Advisory Group to gather additional information to enable them to make a recommendation on the Concept Note.

UNITAID welcomes the development of a full proposal pending confirmation by the IEAG of the need for market intervention.
