

**INVITATION  
TO A PANEL DISCUSSION  
HOW TO HALVE HIV DEATHS**

Keynote addresses by

**H.E. AMBASSADOR MS MARTA MAURÁS PÉREZ**

Chair of Unitaid Executive Board

**H.R.H. PRINCESS DINA MIRED OF JORDAN**

President of the Union for International Cancer Control

**SUNDAY, 19 MAY 2019**

**18:00 – 20:00**

**PRESIDENT WILSON HOTEL, GENEVA**

You are cordially invited to a cocktail reception hosted by Unitaid on the eve of the 72nd World Health Assembly.

One million people a year die from opportunistic infections associated with advanced HIV. If we are to end the HIV epidemic by 2030, we need new approaches to bring down this unacceptable death toll.

Among the biggest killers are tuberculosis, cervical cancer, cryptococcal meningitis and pneumonia.

Our high-level discussion will touch upon investments and actions we can take to meet global goals, featuring ministers of health, heads of agencies and chief executive officers.

We kindly request that you confirm your participation by writing to:
