

Executive Board
10th Session
12-13 May 2009
WHO Geneva, Switzerland

Resolution n°14

Call for Proposals on HIV Viral Load Testing in Resource-Constrained Settings and Related Tools

The Board takes note of the questions and issues raised in the report emanating from the Experts' Meeting submitted by the Secretariat.

The Board authorizes the Secretariat to issue an open themed call for Project Proposals for HIV Viral Load Testing in Resource-Constrained Settings and Related Tools.

This call does not obligate the Board to fund any Proposal received.

The Board requests the Secretariat to further refine the Terms of Reference for the Request for Proposals to take into account market impact.

A handwritten signature in black ink, appearing to read "Ph. Douste-Blazy".
