

Executive Board Meeting
23rd Session
4-5 November 2015
Kofi Annan Conference Room
UNAIDS Building
Geneva, Switzerland

Resolution n° 4

Malaria: Expanding private sector access to diagnostics testing and treatment

Having considered the analysis presented by the Secretariat during EB23, the Executive Board supports the need to “improve access through non-state actors to diagnostics testing and treatment” with a view to securing a substantial impact on the Global Goals for access to diagnostics and treatment in a timely manner.

The Executive Board requests the Secretariat to comprehensively explore the topic with a view to defining UNITAID's appropriate areas for potential investments.

The Board's endorsement of this Resolution has no budgetary implications.

A handwritten signature in blue ink, appearing to read "Marta Maurás Pérez".
