

Resolution n°1-2020-e

Long acting pipeline to establish medicines for malaria, tuberculosis and hepatitis C virus with infrastructure for sustainable translational capacity (LONGEVITY) Project

Recalling Unitaid Executive Board Resolution n°14-2019 of 18 July 2019, in which the Board provided its go-ahead for the development by the Unitaid Secretariat of a full grant agreement package for the proposed Project '*Long acting pipeline to establish medicines for malaria, tuberculosis and hepatitis C virus with infrastructure for sustainable translational capacity (LONGEVITY) Project*' (the "Project");

The Executive Board now authorizes the Secretariat to commit up to USD 32,004,569 for the Project, subject to availability of funds.

Funding is conditional upon signature of the grant agreement between Unitaid, the University of Liverpool and Tandem Nano Ltd.

Lead Organization: University of Liverpool

Project Duration: 5 years

Marisol Touraine
Chair of the Unitaid Executive Board

Date: 17.01.2020
