Resolution n° 9

Grant Management Process

The Board endorses the proposed changes to the grant management process. The Board further recognizes that the proposed changes are designed to enhance and strengthen existing processes with the objective of delivering higher quality proposals that can be signed and implemented more rapidly than today. In this regard, the Board requests the Secretariat to present, at the Executive Board Special Session in 2015, a detailed implementation plan that will define skills sets, roles and responsibilities across the organisation that will be necessary to ensure successful operationalization of the modified grant management process. This implementation plan should include budget implications, if any.
