

Unitaid Executive Board Meeting
37th Session
9-10 December 2020
Organised via videoconference

Resolution n°6

Area for Intervention: “New tools for reducing maternal mortality”

Having considered the analysis presented by the Secretariat during EB37, the Executive Board supports the need for Unitaid to focus strategically on “*New tools for reducing maternal mortality*” with a view to contributing to the Sustainable Development Goals set out for maternal health 2015 - 2030.

The Executive Board requests the Secretariat to launch appropriate calls for proposals within this Area for Intervention and to present progress on implementation to the PSC.

The Executive Board’s endorsement of this Area for Intervention has no budgetary implications.
