## Resolution n°1

### **Area for Intervention: Accelerate and promote responsible introduction of new DR-TB drugs and regimens**

Having considered the analysis provided by the Secretariat as set out in document UNITAID/EB42/2023/8, together with the recommendations of the Policy and Strategy Committee (PSC) presented to EB42 by the Chair of the PSC;

The Executive Board supports the need for Unitaid to focus strategically on “Accelerating and promoting responsible introduction of new drug-resistant TB drugs and regimens”, with a view to contributing to global targets set out in the World Health Organization’s *End TB Strategy* and the Sustainable Development Goals.

The Board requests the Secretariat to launch appropriate calls for proposals within this Area for Intervention and to present progress on implementation to the PSC.

The Board’s endorsement of this Area for Intervention has no budgetary implications.
